ENVIRONMENTAL POLICY

It is the policy of South Coast to manage our obligations to the environment in a responsible manner and to take a sustainable approach to developing our company's business. South Coast regards environmental protection as an integral and essential part of good business practice. We are committed to achieving and maintaining a high standard of environmental quality in all of our operations.

We will do this through the following:

- We have established an Environmental management system which we will continually improve.
- We will follow best environmental practice in regard to our own activities, ensuring that pollution prevention is a major consideration in all our activities.
- We will operate in compliance with all relevant environmental legislation, regulations, waste permit requirements and best management practices for
 - Tyres
 - Vehicles – End of Life and parts
 - Metal
 - Chemical Storage
- We have established environmental objectives and measurable targets against which improvements in environmental performance will be monitored.
 - Fuel, including the use of HVO, FAME and other alternative fuels.
 - Food Waste & Garbage
 - Oil, Oil filters and lubricants.
 - Recycling – Plastics and Cardboard
 - Paper
- We have and will continue to raise staff awareness on the environmental issues and the environmental effects of our activities through communication and training.
- We will review annually our environmental policy and consider the need for any amendments in the light of changing circumstances.
- Make the environmental policy statement available to our employee's, business colleagues, suppliers, customers and the public.
- We will as part of our obligation to Operation Clean Sweep (OCS) protect the environment and marine eco systems from the effects of Plastic Pellet, Plastic Flake and Plastic Dust through a hierarchy of control.
 - Prevention
 - Mitigation
 - Cleaning – Inc Emergency Response.
